

GOVERNOR COX TAKES SWAT AT COMINGS BILL

Columbus, O., Feb. 21.—Gov. Cox stood rebuked today by the house. In a message demanding the passage of a law that will banish the German language from all Ohio schools, public, private and parochial, the governor excoriated the Comings bill recently passed by the house on that subject, characterizing its language as "artful, insidious and apparently deliberate in its attempt to deceive the people of the state" and declared it would establish in Ohio "preserves for treason."

Furthermore, he was convinced, his message said, that "the ingenious phrase of this bill springs from disloyalty somewhere."

The house took offense at the governor's words. Republican leader Beetham assailed the governor for sending a message that criticized and did not instruct. Beetham insisted the governor had failed to point out wherein the bill was a bad one, but had merely confined himself to bombastic phrases.

Under a strict party vote, the motion of Democratic leader Hopple to have the message printed in the house journal, was killed and the message referred to a committee of three "to analyze the message."

The senate, after referring the message to the schools committee, reconsidered and sent it along with the Comings bill, which is pending in the senate to the committee on German propaganda.

The Comings bill, as it now stands, permits private and parochial schools to continue teaching the German language. Public schools may teach it but no public funds can be appropriated for it. Cox wants the "German person" absolutely prohibited everywhere.

VICTOR BERGER GIVES OUT A STATEMENT

Chicago, Feb. 21.—Victor Berger, who was sentenced to 20 years in the Leavenworth prison yesterday on a charge of violation of the espionage act, today gave newspaper men the following statement:

"The sentence proves that the United States of America takes the place of old Russia and the Czar as the bulwark of reactionary and tyrannical aristocracies of the world. It will take the people 30 years hard fighting to win back the civil liberties which we have lost in the last year and a half unless labor and socialism take the short cut and show the ruling classes that conditions at the first half of the twentieth century cannot be re-established in the first half of the twentieth century, even with the help of Burleson, Gregory and the secret service."

"The hope of the world today is in the international socialistic movement. Fraternal socialism does not prevent it, we will have capitalist autocracy or industrial anarchy or both."

CONSPIRED TO KILL CLEMENCEAU AND PRESIDENT WILSON

Paris, Feb. 21.—Rumors were being circulated in Paris today that several plots have been unearthed in Switzerland, regarded as the hot-bed of pro-German and extremist conspiracies, in connection with the attack on Premier Clemenceau. One report was that radicals had planned to assassinate both Premier Clemenceau and President Wilson but that none of the conspirators had succeeded in crossing the frontier into France, owing to the watchfulness of the police. None of these rumors could be traced to its source.

OFFICIALS FAIL TO STEM FLOW OF BOOZE TO MICHIGAN

Detroit, Feb. 21.—Huge quantities of whiskey were still flowing into Michigan today despite efforts of federal officers at Toledo, Ohio, to stop the liquor smuggling.

No effective substitute has been found for the search and seizure section of the prohibition law invalidated by the state supreme court.

Approximately 200 whiskey runners were reported arrested by the federal officers on the Ohio side of the border during the night. There were no arrests made on the Michigan side.

State constabulary acted largely as traffic officers. Hundreds of automobiles, almost running fender to fender, carried on the traffic all night. Detroit is the heavily inundated territory, and is wetter than during the pre-prohibition days, rum runners and old saloonmen said. Prices in Toledo, are rising under the bull movement while Ohio is drying up in proportion to the mounting of the headache waters in Michigan.

TO GERMAN FOLK AT HOME RETURNING SOLDIERS ARE HEROES

Berlin residents cheering returning soldiers passing through famous "Unter den Linden." The plain folk in Berlin and all over Germany, in fact, do not yet realize the overwhelming defeat administered to their native land. To the home folk the war ended about as a "draw," to the honor of Germany. Returning soldiers are cheered as conquering heroes. The picture shows how Berlin turned out to greet its troops home from the war.

SENATOR POMERENE IS ASKED THE QUESTION "ARE WOMEN PEOPLE"

Senator Atlee Pomerene, who last week issued a statement to the newspapers setting forth his reasons for voting against the federal woman suffrage amendment, was sharply scored by Mrs. James C. Wallace, Chairman of the Enrollment Committee of Greater Cincinnati, at a luncheon of the Executive Board at the Woman's City Club in Cincinnati.

Mrs. Wallace answered Senator Pomerene's statement point by point, and at the close of the meeting Mrs. Albert Morrill, Chairman of the Finance Committee of the Woman Suffrage Committee, moved that the statement be embodied in a resolution and sent to Senator Pomerene as evidence of the prevailing opinion of a large body of Cincinnati women.

"Mr. Pomerene says that it is his belief that when it becomes known that the women of the State want the vote the men will give it to them. There is no evidence whatever to warrant such an assumption. Should all the women of the State ask for the vote, and register themselves to that effect, it would then be necessary to take the question to the voters to make an expensive and wearing campaign, and in the end the only voices which would count would be those of men at the polls, who might reverse without question or appeal the decision of a majority of all the women of the State."

"The women of this country will not forget that a Democratic Congress repudiated its own liberal policy and defeated a measure already accepted by the entire civilized world. As surely as a Democratic Congress refused to pass the amendment the new Republican Congress will pass it. Mr. Pomerene has done a serious disservice to his party, as we are sure he will have reason to acknowledge in the next election."

WEST VIRGINIA PLANS TO SETTLE THE VIRGINIA DEBT

Charleston, W. Va., Feb. 21.—After deciding to accept terms of the settlement of the Virginia Debt involving \$15,000,000 the legislature was preparing today for adjournment.

Gov. John J. Cornwell will call a special session to determine how the money is to be raised.

The decision of the legislature comes after 12 years of litigation between the two states. The debt represents the principal and interest of West Virginia's share of the Virginia state debt when this state drew away from the mother state during the civil war.

GERMAN TROOPS OPERATE WITH CONSENT OF FOCH

Basle, Feb. 21.—German government troops operating with Marshal Foch's permission, have recaptured from the Spartans all the public buildings in Elberfeld, according to dispatches received here today. The fighting continued until noon yesterday when in agreement with the allies, the troops withdrew until this morning, leaving a guard to maintain order.

(Elberfeld is within the neutral zone, east of the Rhine.) Spartans were reported to have seized all the bullion reserve in the Reichsbank at Muelheim.

CONGRESSMAN FESS WITHDRAWS FROM THE RACE FOR SPEAKERSHIP

Washington, Feb. 21.—The election of Representative Frederick H. Gillett, of Massachusetts, as Speaker of the House of Representatives in the Sixty-sixth Congress was said to be assured when Representative Simeon D. Fess, of Ohio, withdrew from the Speakership race and left a clean-cut contest between Representative James R. Mann, of Illinois, and Gillett, with the full force of the Republican National Committee organization back of Gillett.

In withdrawing, Representative Fess made the following statement: "In the interest of party solidarity, dependent upon continued harmony which now characterizes the party, I have withdrawn from the Speakership contest and hereby release my friends from any and all pledges in my support. I am deeply grateful to them and to the press for the very cordial support proffered. My action is wholly based upon my sense of duty to the party, which is paramount to every other consideration."

Back of Representative Fess in this action and supporting him in the step taken is Will H. Hays, Chairman of the Republican National Committee, who was in the capital Thursday. Chairman Hays came to the conclusion some time ago that if Dr. Fess should remain in the race, he would pull enough votes away from Gillett to make possible, if not probable, the election of Mann.

Chairman Hays all along has believed that the election of Mann as Speaker would be a party calamity, and has not hesitated to so express himself. There was a conference Thursday afternoon attended by Dr. Fess, Chairman Hays, Representative Fairfield, of Indiana, Representative McCulloch and Cooper, of Ohio and others, when it was represented to Dr. Fess that his withdrawal would insure 119 votes for Gillett without counting on any from Pennsylvania. On the representation that Gillett would have enough votes to elect if he (Fess) should withdraw the Ohio candidate consented to make the announcement of his retirement from the race. Fess agrees with Hays that the election of Mann would be a serious political mistake.

It is believed by Gillett's supporters that their candidate will now get 13 votes from Indiana and 14 from Ohio, the solid delegations from both states. The view that the withdrawal of Fess means a solid Indiana delegation for Gillett is assured by the Indiana members.

CLEMENCEAU WILL BE OUT OF DANGER IN FORTY EIGHT HOURS

Paris, Feb. 21.—Premier Clemenceau, shot by an assassin Tuesday, will be out of danger within 48 hours, it was announced today.

"I am very optimistic of my ability to return to work in four or five days," he told President Poincare yesterday.

It was announced at the Premier's residence that he was "getting on as well as possible." He was out on the balcony for a while yesterday afternoon and considering the relative gravity of his wound, his condition was regarded as highly satisfactory.

The X-ray examination late yesterday revealed that the bullet had penetrated the outer tissue of the lungs, explaining the slight hemorrhage he suffered yesterday afternoon.

REV. H. J. JEWETT GETS COMMISSION OF FIRST LIEUTENANT

The many friends of Rev. H. J. Jewett will rejoice with him over the receipt today of his commission as a first lieutenant chaplain in the United States army dating from October 24th. While the war is over and Rev. Jewett will not be called for active duty he is much gratified at having been awarded his commission which he considers one of his most prized possessions.

After many months of effort to secure a place in the army as a chaplain Rev. Jewett finally succeeded in securing a recommendation for a commission several months before the war ended, and when the armistice was signed he was fully equipped and was daily expecting to receive his commission with instructions to prepare to sail for France. When the war ended his services were no longer needed and he had no information as to whether he would receive his commission or not.

The receipt of the commission Friday morning was a complete and very pleasant surprise.

TWO MEN PAID THE SUPREME PENALTY IN ELECTRIC CHAIR

Columbus, Feb. 21.—Frank Mazzano and Rocco Borgia, Akron, were electrocuted early today, following a vain attempt in the legislature to save their lives.

The two men were convicted of the murder of patrolman Gethin Richards, Akron policeman.

Just before adjournment late yesterday, Rep. Evans, Toledo, introduced a resolution, imploring Gov. Cox to change the sentence of the two men to life imprisonment.

Evans said the reason for his action was a pact he had entered into with "Golden Rule" Sam Jones, of Toledo and Brand Whitlock, former Mayor of Toledo, and Minister to Belgium, to fight capital punishment.

Representative John W. Correll, Carroll county, a former minister, led the fight against the resolution which was defeated by an overwhelming vote.

DISORDERS IN GERMANY ARE ON INCREASE

Spartans occupied Bayreuth and forced the burgomaster to resign. The government forces are being concentrated south of Lippe and east of Bochum.

REV. GEORGE GOWDY DIES ON THURSDAY IN MISSISSIPPI

The Rev. George E. Gowdy, a well known Presbyterian minister, and for 17 years pastor of a church at Lebanon, died at 11:20 Thursday night at Ocean Springs, Miss., where with Mrs. Gowdy he was spending the winter. It is thought that his death was sudden as his relatives here had not been notified of his illness.

Owing to ill health, Rev. Gowdy gave up his charge at Lebanon three years ago, and during the summer he and Mrs. Gowdy made their home with his brother, James A. Gowdy, on his farm just west of the city. Their winters were spent in Green Springs, where Mr. Gowdy was preaching.

Rev. Gowdy was born in Greene county, and was a son of Robert Gowdy and Emily Manor Gowdy. He received his education for the ministry at Lane Seminary, Cincinnati, and after graduation held charges at Greenville, Carlisle, Eaton and Lebanon. He held the last charge 17 years, and his congregation at Lebanon was greatly devoted to him.

Surviving him are his widow and two children, Lieutenant Edwin Gowdy, who is at Camp Sherman, and Mrs. Thomas Wood of Springfield. Attorney R. L. Gowdy of this city; James A. Gowdy, and Mrs. R. D. Williamson, are brothers and sister of the decedent.

ROBERT O. FAY RESTS IN WOODLAND

Funeral services for the late R. O. Fay, who died at his home in Eugene, Oregon, were held at the Presbyterian church in this city at 1:30 o'clock Thursday afternoon.

Burial was made in Woodland cemetery, the pall bearers being George Cooper, W. B. Bryson, R. E. Bryson, Frank Keyes, Harvey Coates and Arthur Garfield.

The body arrived in this city Thursday morning and was taken to the home of Robert Bryson, where the immediate family held a prayer service Thursday.

TOLL THE BELLS, THE POOR THING'S DEAD

In Harry Kiernan's weekly witticism, in his "smallest weekly in the world," "Picture People," he takes a shot at the famous and much-advertised awning ordinance which is at present "marking time" true to form. The article reads:

A tragedy in one act.
Time—The present.
Scene—Under the only awning on Second street.
Admission—One scent is enough.
She:—"Gracious! What causes that awful smell around here?"
He:—"Sh-h-h! I think the Awning Ordinance crawled in there and died."

THEATERS

Yo! ho! and a bottle of room. Ye who like tales of adventure on the high seas and mysterious buried treasures. Hark ye! Here comes Lila Lee, a Paramount star, who, as Patricia Wolf, is a direct descendant of old "Bloody Wolf" who many years ago roved the ensanguined seas of the Spanish Main, robbing whom he may.

And Lila, being an adventuresome little cuss, bies her out on the high seas in quest of this treasure, all of which is very interestingly told in "Such a Little Pirate," the Paramount feature, which appears at the Bijou Theatre Saturday. Theodore Roberts, Harrison Ford and others of note support Miss Lee.

ORPHIUM
The first episode of "The Lightning Raider," the serial featuring Pearl White, attracted so much interest that there is much anticipation of the second episode of the picture "The Counterplot," which will be shown at the Orphium Theatre Saturday.

The Right Laxative For The Little Ones—

The natural condition of a child is to be happy and carefree. When the girl mopes and is indifferent to school and study, or the boy is sullen and refuses to go out and play, the child needs a laxative to empty the bowels and stir up the liver.

But something should be given that will produce the result in as simple and natural a way as possible. Harsh cathartics and physics are neither necessary nor desirable.

Many mothers have found that the combination of simple laxative herbs with pepsin sold by druggists under the name of Dr.

Caldwell's Syrup Pepsin produces a free movement of the bowels without griping. A very little is required, and it is pleasant to take. A few hours after its use the child will be its happy self again.

It is an excellent remedy for the mother herself, and for the other members of the family, in obstinate or occasional constipation, for the relief of headaches, as an aid in colds and fevers, minor skin eruptions and all disorders where the basis of the trouble is constipation.

The druggist will refund the money you pay for Syrup Pepsin if it fails to do as promised.

Dr. Caldwell's SYRUP PEPSIN

The Perfect Laxative

PRICE AS ALWAYS

In spite of greatly increased laboratory costs due to the war, by sacrificing profits and absorbing war taxes we have maintained the price at which this family laxative has been sold by druggists for the past 6 years. Two sizes—50c and \$1.00.

FREE SAMPLES

If you have never used Dr. Caldwell's Syrup Pepsin send for a free trial bottle to Dr. W. B. Caldwell, 468 Washington St., Monticello, Ill. If there are babies at home, ask for a copy of Dr. Caldwell's book, "The Care of Baby."

LOVELY AFFAIR IS GIVEN BY MR. AND MRS. S. M. MCKAY

One of the loveliest of the evening affairs this season was the dinner given by Mr. and Mrs. S. Milton McKay at their West Market street home Thursday.

There were covers for forty-eight at small tables attractively arranged throughout the rooms, each centered by a crystal basket full of fragrant red and white sweet peas. The places were marked by exquisite little cards having Washington Birthday designs. The pretty decorative arrangement was heightened by the baskets of crimson roses which were used about the rooms. Dinner was served in four courses. Out of town guests were Mrs. Garber of Fremont, who is Mrs. C. A. Weaver's house guest, and Mrs. Stewart of Cincinnati, who is visiting her sister, Mrs. D. D. Jones.

SOLDIER'S LETTER

Dr. Paul E. Espey of this city has received a very interesting letter from Jay Harold Whitt, son of S. J. Whitt, who is with the 57th division (old Ohio National Guard) in France. The letter follows:

"Just a few lines today as I just thought of you and wondered how you would enjoy a letter from France. It seems the exposure and hardships of the army have cured me and I never have any more trouble, except with my eyes. They are pretty bad on account of mustard gas, which I got in the last drive. They are getting better right along, though.

"Our first position after landing was on the Alsace-Lorraine sector. We underwent our first shell fire there. Then we went to Verdun, where we started a drive on a wide front which had lain dormant for four years. The preparation the Germans had made there was wonderful. Dug-outs 30 to 50 feet deep, lined with cement and reinforced with steel rods. Our artillery first day and it was easy going. But the next four days was a living hell. I shall never forget it. The drive started at 5 o'clock in the morning of the 26th of September. I was wounded on the 30th, mustard gas and shrapnel. The medical department had a very hard time of it, as the roads were bad and the artillery fire of the enemy was so heavy. I saw men killed not five feet from me. Literally blown to pieces. But we licked the Boche and chased him so fast that we ran into our own artillery fire.

"Our next front was the St. Mihiel sector. They said it was a quiet one, but the Boche must have seen us coming for they surprised us. From there we went to Belgium and made a drive there. The 37th and the 91st were the only American divisions ever in Belgium. I belong to the 37th. It was horrible how the Boche treated the Belgians. You can readily believe anything you see in the papers, no matter how inhuman it is. The Belgians were crazy with joy. I was never so embarrassed in my life, when a Belgian girl put her arms around my neck and kissed me on both cheeks. I was an awful looking sight, too. Covered with mud and wet clear through. It would make an American girl scared to see me. I got my share of Boches there. I am glad to say I didn't kill any, but captured three from a barn.

"I was in Thiel, Brussels and Cand while in Belgium. We hiked back to France when the armistice was signed and were near Dunkirk. I was fortunate enough to visit Dunkirk and Calais. Both are very interesting cities.

"We expect to sail for America shortly, so I will close with the hope of seeing you soon.

"I remain your friend,

A CHILD HATES OIL, CALOMEL PILLS FOR LIVER AND BOWELS

Give "California Syrup of Figs" if cross, sick, feverish, Constipated.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children, it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

EXTRA LONG WEAR FROM SHOES

T. D. Collins of Oskala, Hawaii, makes remarkable statement which demonstrates the money-saving durability of Neolin Soles.

He writes, "After wearing a pair of Neolin-soled shoes off and on for thirty-three months, I wore them on a trip to the volcano of Kilauea and walked around the crater over hot lava six times and still the soles showed only slight signs of wear."

This experience is not accidental. It results from the scientific process by which Neolin Soles are made to be exactly what soles should be—comfortable, waterproof and exceedingly economical because of the long wear they give.

Get them on new shoes for all members of the family and have them put on worn shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear any other heels.

CAPITAL AND LABOR SHOULD BE PARTNERS. FRIENDS NOT ENEMIES.

The son of the richest man in America, Mr. John D. Rockefeller, Jr., is giving more attention to the subject of "Capital and Labor" than any one else so far as has come to our notice. We mean in the sense of overcoming the troubles which have long continued between Capital and Labor.

And is it not a significant fact that the man who promises are long to be at the top of the ladder of "Capital" in the country should evince such great interest on the subject of "Labor" and that in the interest and for the betterment of Labor. To his everlasting praise be it said.

We are indebted to Mr. Rockefeller for a copy of his address before the War Emergency and Reconstruction Conference of the Chamber of Commerce of the United States, at Atlantic City, N. J., December 5th, 1918, from which the following article is mostly collated.

The war has taught many lessons; one of the most useful is the value of co-operation.

The successful outcome of the conflict was largely the result of the most complete co-operation. Irrespective of race, color or creed, men worked and fought and suffered and died, side by side. The kinship of humanity has come to be understood as never before.

We stand at the threshold of the period of reconstruction. The hope of the future lies in the manner in which we shall accomplish the task. Among the many problems that confront us none is more important than that of Industry, none more pressing, since Industry touches almost every department of life.

Is it not true that any industry, to be permanently successful, must insure to Labor adequately remunerative employment under proper working and living conditions, to Capital a fair return upon the money invested, and to the Community a useful service?

It is frequently maintained that the parties to industry must necessarily be hostile and antagonistic. I am convinced that the opposite is true; that they are not enemies but partners; and that they have a common interest.

Thus the two forces have come to work against each other, each seeking solely to promote its own selfish ends. As a consequence have come all too frequently, the strike, the lockout and other incidents of industrial warfare.

As regards the organization of Labor, it is just as proper and advantageous for Labor to associate itself into organized groups for the advancement of its legitimate interests as for Capital to combine for the same objects. Such associations of Labor manifest themselves in collective bargaining, in an effort to secure better working and living conditions, in providing machinery whereby grievances may easily and without prejudice to the individual be taken up with the Management.

But organization is not without its dangers. Organized Capital sometimes conducts itself in an unworthy manner, contrary to law and in disregard of the interests of both Labor and the public. Such organizations cannot be too strongly condemned. Likewise it sometimes happens that organizations of Labor are conducted without regard for the rights of the employer or the public; methods and practices are adopted which deserve public censure. Such organizations bring discredit and suspicion of injustice.

Progress has been made in England in the last year towards a more complete program of representation and co-operation on the part of Labor and Capital. The outstanding feature is that there should be formed joint industrial councils, Labor and Capital to be equally represented.

A method of representation similar to that in England, though less comprehensive, and which is constructed from the bottom up, has been in operation for varying periods of time in a number of industries in this country, including the Standard Oil Company of New Jersey, the Colorado Fuel & Iron Company, the Consolidation Coal Company and others; (the Rockefeller interests.)

Where this plan has been in operation for several years some of the results are: First. Uninterrupted op-

eration of the plants and continuous employment of the workers, resulting in larger returns for both Capital and Labor. Second. Improved working and living conditions. Third. Frequent and close contact between employees and officers. Fourth. The elimination of grievances as disturbing factors. Fifth. Good-will developed to a high degree. Sixth. The creation of a community spirit.

Under its operation, the participants in industry are being convinced of the soundness of the proposition that they are fundamentally friends and not enemies, that their interests are common, not opposed. Moreover, prosperity, good-will and happiness are resulting. Based as the plan is upon principles of justice to all, its success can be counted on so long as it is carried out in a spirit of sincerity and fair play.

Editor Gazette and Republican:—
 An exhibition of extreme unfairness recently took place in the law making chamber of the United States, and the people of the country should demand that the law making rules be changed, so that unfairness will end.

The Suffragists had a vote of 55 against 29, a large majority vote of 26 votes, a vote almost double of that of the opponents. But owing to an unfair constitution they were defeated. The people should demand that that two-third vote requirement, that all majority requirements in excess of the least possible majority, should end. Congress should do its duty to reformers—to the people—by voting very soon for an amendment to the constitution that will make the least possible majority sufficient.

The prohibitionists were recently up against that unfair proposition, and while they "hoed two rows of potatoes" the booze interests only had to "hoe one row." All the reformers of the past have been thus unfairly treated by a government that pretends to be democratic. That's why there has been only 18 amendments to the U. S. constitution. Otherwise the amendments would probably have exceeded 50. That's why we have an ancient constitution not at all in keeping with the progress of invention and science. Another reason why a majority of 26—a vote of 55 to 29, did not win—is because there were 29 stubborn headed men in the U. S. senate that would not "give in" a little—would not say, "let's be democrats and vote with that big majority." Fairminded men would have yielded a little, and voted slightly against their opinion, when they knew of that big majority.

Especially is that true of those Congressmen who had received an almost unanimous voting memorial from their state legislatures. Therefore, the people of the states where those 29 U. S. Senators live, should see to it that none of them are re-elected to that office, or to any office.

NEIL TAKES BLANCHE ORTON'S ADVICE TO EXERCISE

CHAPTER XVII.

At times I felt almost afraid of my love, for Neil, so strongly had it always swayed me. Then again I was almost ashamed of loving him so much. This, when he seemed inanimate when with me—as often happened. Men are said to be selfish. I had heard women talk as if selfishness were bred in men, and ineradicable; therefore it must be accepted by women.

Neil was a composite. Selfish beyond anyone I ever had known in some ways; unselfish to a definite degree in others. And as his unselfish actions were invariably accompanied by passionate love-making and generosity toward me, I would forget the other side—the selfish side of his nature—for long periods at a time.

We had moved into the new apartment. I felt almost lost in the immense rooms. I had cared for the smaller one with a sort of joyous devotion and energy, because, as I told Neil, it was "my little house, my first home with him."

All through my life at home with father and mother, there had been aside from the necessary plainness of people in our circumstances, a note of simplicity. But Neil loved luxury. He often said laughingly:

"I like the sensation of sinking down in things." So we had divans with big, fat cushions, and easy chairs, that, once you were settled in them, you felt that never could you get out of them without assistance.

Our new home was exquisite in many ways. Yet to me it lacked the "hominess" of the first little home. A fashionable and high priced decorator had hung the walls with tapestries, or soft plushes. The furniture had been selected for the place it was intended to fill with the greatest care. But once put where it belonged, it had to remain there. It was absolutely incongruous anywhere else.

Neil still looked worn and tired. He was always laboring under a sort of excitement, was restless, and "strung up" as father would have expressed it. I felt anxious about him, but when I spoke of what I called his "nervousness," he only laughed at me.

One day he came home in great glee. He and another man had decided to take boxing lessons. He explained his reasons.

"Everyone says I look tired. I think it is because I get no exercise. I'm sitting in the office three-quarters of the time. One does get stale and soft. The softer one gets, the less he is inclined to make the effort required if he would harden his muscles. I met Blanche Orton today, and she accused me of getting old. So I made arrangements to box twice a week."

He had done it because of Blanche Orton's criticism. I had been telling him for some weeks that he looked badly, and he had simply laughed and dismissed it with a shrug. But the moment SHE spoke to him, he had been awake to the necessity for action.

I think that jealousy of Blanche Orton awakened in me then. She, another man's wife, could influence my husband, where I could not. I never had heard anything tangible in any way against Mrs. Orton; she was received everywhere. Yet I had seen a slight lifting of eyebrows, on occasion, when she was more than us-

ually frank in her actions. She was consummately clever. Very ingenious. Always she knew how to turn everything to her own advantage; to gloss over a too-pronounced speech and action so that it bore the look of innocence or ignorance.

That she was beautiful, I could no more deny than I could repudiate her fascinations. But I had thought nothing of her beauty as it might affect me, less of her fascinations, until Neil so frankly told me she had influenced him to take boxing lessons so that he would recover his looks.

We had a butler now as well as maids and the cook. Neil was planning to entertain extensively, that winter. When I asked him WHOM he desired to invite, he said:

"Business people mostly. It is necessary, now-a-days, if one is to get on."

Tomorrow—Bab Is Anxious Because Neil Is Drinking.

Famous Old English City.

The bishops of Durham, England, were prince bishops and this was no mere empty title, for does not an old chronicler say that "whatever right the king has outside Durham the bishop has within?" It is probable if the Norman owners of the first keep could revisit the scene today, that they would have their ideas of what a castle may be considerably enlarged. Cathedrals, castles, bridges, all these come in the category of buildings which the men of bygone days held to be of capital importance and lavished much of love and care upon. Furthermore, the three are generally to be found together. Durham has its ancient bridges as well as its cathedral and its castle.

Are You Included

When you have performed an act of kindness to one who is ill or discouraged, do you not feel that you have done something worth while? The two paid workers of the Social Service League have made 2000 visits during the past year to the ill and needy besides a tremendous amount of work performed from the office and thru the telephone.

The aim of the League is not to pour out coal and food and clothing indiscriminately but to assist people thru their emergencies and see that they do not suffer. To establish independency, avoid pauperizing, see that children have CHILDREN'S RIGHTS and to protect them from neglectful and vicious parents.

There are yet a few people in our midst who object to our Social Workers receiving the salaries justly due to workers who perform tasks of so great responsibility and risk. Our social workers are not paid for doing out "easy living" to the shiftless but for bettering living conditions in our city. But despite the few "knocks" heard, the "boosts" out number more than a hundred to one.

The past year's work of the League has been most successful. The League is gaining friends each day. Money and provisions and workers have come to us unsolicited. The League is partly self supporting. During the past year nearly one thousand dollars have come into our treasury thru special work done by the two paid workers.

Second, enter your name plainly, and also tell me the name of your feed dealer.

Third, mail your guess on or before National Mixed Purina Day, That is February 24th. I selected it specially because my favorite feed, Purina O-Molene saves my owner 25% of his feed.

Purina O-Molene is wonderful feed for mules and horses. I know, 'cause I'm a mule myself. It is economical, because I like it, and assimilate all of it that I eat. I never have trouble digesting all of my O-Molene. Also, it makes me husky and healthy, so that I can do more work for my owner.

Now then, here are the prizes:

For the best answer the prize will be \$100.00.

For the next best answer the prize will be \$25.00.

For the best answer the prize will be \$50.00.

THE LARGEST SUBMARINE IN THE WORLD

British "K" class submarine.

Every day new, marvelous achievements of the allied experts in perfecting more powerful and effective war engines are being brought to light. Until the Germans signed the armistice terms the veil of secrecy covered all this progress. The photo shows a new type of submarine which was being built by the British navy. It is said to be the largest in the world. It is capable of tackling the largest destroyers and even cruisers in a surface battle. While on the surface it uses steam for motive power. This and its great size among the secrets concerning it. The new craft is 350 feet in length.

A REAL IRON TONIC

Like Pepton May Be Just What You Need This Spring.

Probably nine people out of ten have lost or are losing their grip on health in these trying months of awful epidemics, exposure to damp, changeable weather, and association with sick people in overheated homes.

Depleted blood, loss of the red corpuscles, shattered nerves, loss of appetite, dull, dozy feelings in the head, irritability, all loudly call for the real tonic strength and nourishment that Pepton will give you. It is a wonderful corrective of anemic tendency, paleness, languor, the red corpuscles to the blood and gives a natural vigor and snap that keeps up courage, makes you cheery and helpful to your family and friends, and contributes wonderfully to the health of all. Remember this one thing—as vitally, positively true—Pepton is a real iron tonic.

Pepton restores the red corpuscles to the blood and gives a natural vigor and snap that keeps up courage, makes you cheery and helpful to your family and friends, and contributes wonderfully to the health of all. Remember this one thing—as vitally, positively true—Pepton is a real iron tonic.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But knowing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

A MOTHER'S STRENGTH

Mother, whose hands rock the cradle, often needs more than ordinary food to help maintain the blood-quality and strength and to assure adequate nourishment to the child. It is as unwise for the mother, as it is dangerous to the child, to place dependence upon alcoholic stimulation, for strength is not found in alcohol.

SCOTT'S EMULSION

of purest cod liver oil, absolutely free from alcohol, is mother's true friend, in that it performs a two-fold duty. Scott's is tonic-nourishment, particularly fitted for the trying period of motherhood.

SCOTT'S EMULSION BUILDS UP STRENGTH.

MCKINLEY TEAM HAS HARD TIME TO BEAT CRACK ALPHA TEAM

Junior High School's crack little basketball team did not find it all easy sledding at Alpha Thursday evening, when it tackled the Alpha quintet, but superior prowess in the court showed with telling effects, and the McKinley crowd again triumphed by the score of 27-21.

The contest was the closest that has been staged by the Junior High lads this season, and the Alpha outfit quite kept them on their toes to come out on the long end of the score. Genger, who performs at center for the locals, was the shining light of the evening, annexing eight baskets from the floor and swishing the net once from the free line. The line-up and score.

Copper's Great Value.

Next after gold and silver, copper is to us the most interesting of all the metals. Fresh and free of corrosion (as seen in a new minted cent) it is really more beautiful than gold, having a more colorful and brilliant luster. It is incomparably more useful than gold, serving as it does a vast number of employments for which there is no satisfactory substitute.

JAMESTOWN BOY IN CASUALTY LIST

The name of Fred Rowland, Jamestown boy, was carried in Friday's casualty list as having died of wounds in France.

Rowland is a brother of Mrs. Dennis Bryan, of near Jamestown, and he made his home on the Bryan farm before he was called into the service. Mrs. Bryan received a notice of her brother's death two or three weeks ago, the statement disclosing the fact that he died in November. The nature of his death is not known and few particulars regarding the young man could be learned. Besides Mrs. Bryan, no other relatives live in this state.

FUNERAL SERVICES FOR CLARENCE STUMP

Funeral services for Clarence W. Stump were held at the Friends church in Spring Valley Tuesday afternoon at 1:30 o'clock and were in charge of the Friends' minister, Rev. Penn, assisted by Deborah Loyd.

Burial was made in the Jamestown cemetery, the pallbearers being Ber Spittler, Ellsworth Smith, Mr. Arnold, Mr. Rude and Mr. Mangold.

DISCOURAGED

You have tried everything. It's the same old story. I hear it everyday. Your courage is gone, your faith is gone. The end would be gladly welcomed, but even that won't come. What would you give to be a well man—a well woman? What wouldn't you give? Worse cases, perhaps, than yours, are yielding as if by magic to its subtle power. Why not your case? I will leave it to your intelligence and good judgment. Slaves to mock or false modesty, you deserve to suffer, 95 per cent of the supposed incurable cases could be relieved physically and mentally, if they would only confess it to a friend, family, or better, a skilled physician. Don't argue I've tried electricity with no results—you may have no idea what an up-to-date electrically equipped institution really is.

IF I ONLY KNEW JUST WHAT AILS ME.

How often have you made this remark? Yet you continue to suffer, hesitating to seek aid because you consider that medical attention would be too expensive, or, perhaps, are you dissatisfied with past treatment. Remember, all the wishing, hoping and praying never cured any real physical ailment. Then, why continue to grope in the dark, suffering pain, discomfort and dissatisfaction? An X-ray examination will cost you out one dollar and is considered by the medical profession as one of the greatest aids to a correct diagnosis. If your case is not incurable you can be treated at one of the most completely equipped offices in the Middle West. 25 years' experience.

Be Your Boy's Comrade.

All little fellows are ambitious to be comrades of the "big boys." Be a big boy yourself and get some fun out of life. And at the same time you will be building a future for your son that will be a more glorious memorial, a more effective monument to yourself than could be raised by all the marble and granite in the hills of the whole world.

Coughing Tires the Old

Elderly people, tired out and weakened with coughing, will find great help and comfort in

FOLEY'S HONEY-TAR

It relieves those chronic coughs, usually bronchial in character, and puts a soothing healing coating on a dry and tickling throat. It raises phlegm easily.

George Perry Randall, Dayton, Nevada, in his 57th year writes: "I take Foley's Honey and Tar for coughing and tickling in the throat. Sometimes the spell of coughing would last from five to ten minutes. I am very glad to tell you that Foley's Honey and Tar has stopped all that, and also the tickling."

NATION IS BEGINNING FINANCIAL RECOVERY

Washington.—Definite evidences of the beginning of financial recuperation following abnormal war conditions are set forth by the Federal Reserve Board in a review of the February reserve bulletin. These evidences are: Increase of bank balances at financial centers, a tendency toward lower rates for money, lessening of the amount of paper held by Federal Reserve and Member Banks, inflow of gold coin and gold certificates at banks, indicating greater confidence in the financial situation, and lessened demand for money, and decline in the volume of Federal Reserve notes outstanding, demonstrating the elasticity of the Federal Reserve system.

The board deplored evidences of the relaxation of wartime economies, saying that the industries of the United States and other countries would soon need quantities of capital, and that it behooved Americans to continue to be thrifty and pile up reserves of credit.

"The return of active production and consumption is being retarded," the board observed, "by high expenses of production."

Mr. Ralph Robinson has been visiting his parents, Rev. and Mrs. J. V. Robinson.

Mr. and Mrs. Cam Fudge entertained at 6 o'clock dinner Tuesday evening for the pleasure of Mr. and Mrs. John Ary, who will soon take up their residence in Xenia.

Hubert Glass, little son of Mr. and Mrs. Howard Glass, has been ill the past week.

Mrs. Doster, who has been ill for some time, remains in the same condition.

Members of the Farm Bureau met Wednesday afternoon at the church. After the meeting ice cream was served.

Crossing the Rubicon.

Rubicon was the name of a small river which formed part of the boundary line of ancient Italy. On one occasion Julius Caesar participated in a war by leading his forces across the river. From this event comes the phrase of passing, or crossing, the Rubicon, and it is now a figure of speech to designate any important step that is beyond recall. John Adams, an American patriot of the Revolutionary period, declared in a letter, written about the beginning of the war: "The die is now cast. I have passed the Rubicon. Sink or swim, live or die, survive or perish with my country, is my unalterable determination." The letter was written just after the battle of Bunker Hill.

Take Mrs. Austin's Buckwheat for a quick breakfast. Three pound package twenty-five cents.

DRINK HOT WATER
IF YOU DESIRE A
ROSY COMPLEXION

Says we can't help but look better and feel better after an inside bath.

To look one's best and feel one's best is to enjoy an inside bath each morning to flush from the system the previous day's waste, sour fermentations and poisonous toxins before it is absorbed into the blood. Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken each day leave in the alimentary organs a certain amount of indigestible material, which if not eliminated, form toxins and poisons which are then sucked into the blood through the very ducts which are intended to suck in only nourishment to sustain the body.

If you want to see the glow of healthy bloom in your cheeks, to see your skin get clearer and clearer, you are told to drink every morning upon arising, a glass of hot water with a teaspoonful of limestone phosphate in it, which is a harmless means of washing the waste material and toxins from the stomach, liver, kidneys and bowels, thus cleansing, sweetening and purifying the entire alimentary tract, before putting more food into the stomach.

Men and women with sallow skins, liver spots, pimples or pallid complexion, also those who wake up with a coated tongue, bad taste, nasty breath, others who are bothered with headaches, bilious spells, acid stomach or constipation should begin this phosphate hot water drinking and are assured of very pronounced results in one or two weeks.

A quarter pound of limestone phosphate costs very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, purifies and freshens the skin on the outside, so hot water and limestone phosphate act on the inside organs. We must always consider that internal sanitation is vastly more important than outside cleanliness, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Peter Brown, the Piqua Restaurant Man, Takes the Nervous Way to Better Health.

It was a short and inexpensive way. Just a dollar's worth of this famous family tonic made him so happy and grateful that he went back to Greenmeyer & Co.'s Drug Store, Piqua, and volunteered and signed the following telling words of praise—"a free-will offering" as the demonstrator will put it:

"Nerv-Worth Co.—I was in a run-down condition. Had stomach trouble, no appetite. Sleeplessness and a tired all-in feeling. I have used but one bottle of your Nerv-Worth and am greatly improved. I was formerly a very vigorous man. PETER BROWN. Your dollar back if Nerv-Worth does not do for you what it did for Mr. Brown. Sayre & Hemphill sell Nerv-Worth in Xenia, W. F. WILLIAM GLANCY IS LAID TO REST FRIDAY

The funeral of William Glancy, former well known motorman on the Rapid Transit Line between Xenia and Dayton, who died at 4 o'clock Tuesday afternoon at the home of his mother, Mrs. William Glancy, 565 West Fifth street, in Dayton, was held Friday afternoon at 2 o'clock at the late residence, 35 Easton street, in Dayton. Burial was made in Woodland cemetery.

Mr. Glancy was formerly well known in interurban railway circles. He began as a motorman on the old Cincinnati and Hamilton line, and after working on the Rapid Transit line for several years became superintendent of the Dayton and Greenville division of the Ohio Electric Railway, which he resigned when his health began to fail a number of years ago.

He leaves his mother, wife and one daughter, Mrs. Albert V. Gress. His father, William Glancy, once an engineer on the Baltimore & Ohio, was killed near Jamestown several years ago, when an engine in which he was riding, turned over.

With very little advertising, hundreds of thousands of bottles of Mentho-Laxene are sold every year by druggists, and each year the sales grow larger. MOTORAIDS

In arranging a basket for the motor-trips this summer two things are of chief importance, first the size of the basket and second that it shall open in such a way that all its contents are easily accessible.

To equip the basket stretch a broad half way up, and fasten it at intervals. The enameled ware plates may

be placed on edge and held by this tape. This is much better than packing plates on the bottom of the basket, as they may be removed without disturbing the other contents. Each luncheon basket should also have a pepper shaker and a salt cellar, half a dozen teaspoons, knives and forks and a supply of paper napkins. A piece of tape around the inside, above

SOME PROPOSED LEGISLATION TAX PAYERS SHOULD FULLY UNDERSTAND

County Representative Bryson has prepared the following article addressed to the people of Greene county in which he calls attention to some of the legislation that is now pending before the Ohio legislature. It is legislation which he thinks the taxpayers should understand before it becomes law. The following article by Mr. Bryson is worth reading:

There is a bill now pending in the Ohio State Legislature, which provides for the election of the County Board of Education members by popular vote. I have received a petition signed by more than three hundred persons, mostly from Xenia, New I am wondering if they really know the full intent of this bill. On the face of it, it sounds right to say, let the people decide by popular vote who are to be the members of the County Board of Education. But if you suppose that the full intent of this bill is to shift the election of the County Board members from the presidents of the local boards, as it now is, to popular election, just for the purpose of making a change, he has missed his calculation, for there is very little demand over the state for a change, for that purpose alone.

As the County Board is now constituted and elected, it is not and cannot become a taxing body. For the past few years there has been a growing sentiment over the state, that the County Board of Education should become a taxing body and levy a uniform school tax on all the property of the county under its jurisdiction and distribute it equally for all school purposes to all schools over the county. Should this proposed bill become a law, then the County Board of Education may become a taxing body because its members will then be elected by the people.

There is a bill now prepared and will be presented, should the County Board become a taxing body, as is proposed by this bill which seeks to make its members elected by popular vote. This bill will make the County Board in each county of the State, the sole taxing body for all school purposes in the county. This means that the County Board will place a uniform tax on all the property of the county and distribute it uniformly to all the schools of the county.

The argument for this plan is that the schools exist for the training of citizenship; that the children in the remote districts should have the same educational advantages as those have in the more favorably situated districts; that the wealthy districts should help educate the children in poor districts.

For instance Xenia township (owing to location and the many public utilities of high taxing value passing through it) has a tax duplicate of more than five millions of dollars. This enables her to have plenty of money to run her schools on a two and eight-tenths mill levy, (see tax rate as per county treasurer,) while several other districts in the county are levying above six mills for school purposes and then don't have money enough to meet the minimum requirements. It is supposed that a uniform five mill levy for school purposes would be sufficient to meet the needs and give all children of the county equal educational advantages.

I have been opposed to this bill for the following reasons: First, Should we change the election of County Board members from the way it is at present to popular election as the bill proposes, it would throw the schools direct into partisan politics, which all good citizens concede to be a bad thing. Second, I am not yet convinced that we are ready for a uniform tax for all school purposes, levied equally on all the school districts of the county and distributed equally to all the schools of the county.

Now if the people of Greene county know just what you want and will let me know, I am ready to revise my judgment on this bill. I shall always do what I think is for the best interests of the majority of my constituents. I am subject to conviction. Taxpayers of Greene county, if you are interested in this bill, let me hear from you. Very truly, W. B. BRYSON.

MRS. CARRIE GEYER IS HIGHLY HONORED

Mrs. Carrie D. Geyer has been honored by selection as one of the twelve mothers in the state who have been asked to talk to the soldiers at Camp Sherman next Sunday. Mrs. Geyer has accepted the invitation.

There are a large number of soldiers in camp, the personnel constantly changing, because of the discharge of many while others, chiefly those from overseas, are being received.

Mrs. Geyer returned yesterday from Middletown, where she was the guest of Rev. and Mrs. C. W. Sullivan, and spoke Wednesday night before the teachers' training class at Rev. Sullivan's church. Rev. Sullivan has been situated in Middletown since last autumn, and is pastor of one of the largest churches in the city. Mrs. Geyer stopped in Dayton Thursday night, and spoke at the First United Presbyterian church in that city.

Happy Mothers Prepare in Advance

A Wonderful Influence For Expectant Mothers.

Mothers for over half a century have used with the utmost regularity the time-honored preparation, Mother's Friend, before the arrival of baby. Here is a truly wonderful penetrating application for the abdomen and breasts. It softens and makes elastic the muscles, rendering them pliant to readily yield to nature's demand for expansion. By its use the anxious months of pregnancy are made comfortable. The usual wrenching strain, bearing-down and stretching pains are counteracted. The system is prepared for the coming event, and the use of Mother's Friend brings restful nights and happy anticipation, for the nerves are not drawn upon with the usual strain.

By its regular application the muscles expand easily when baby arrives; the time is less at the crisis and naturally the pain and danger is less.

Mother's Friend is on sale at every drug store. It is for external use only, is absolutely safe and wonderfully effective. Write the Bradford Regulator Company, Dept. C, Lamar Building, Atlanta, Georgia, for their interesting Motherhood Book, free to users of Mother's Friend, and obtain a bottle of Mother's Friend from the drug store and begin this grateful treatment.
